

Call 1-866-333-4246 for more information. Available with a prescription. Talk to your doctor. A defibrillator treats the most common cause of cardiac arrest and will not save everyone. More lives could be saved if cardiac arrest victims were reached more quickly with defibrillators.

## After cardiac arrest, you need help within 5 minutes. The ambulance usually takes 9.

**Philips HeartStart Home Defibrillator.** For the best chance of survival, a shock should be delivered within five minutes. But most sudden cardiac arrests happen at home, where help often doesn't arrive in time. So Philips designed a defibrillator for the home that can be used by people just like you. Now you can help save a life in about the time it takes to read this ad. It just makes sense.
